1. Discuss and possible action regarding a Proposal from Roberts Construction Company for tap fees and cap fees to complete a previous water project
2. City of Eden Planning Session

A proposal from Roberts Construction Company to complete the water taps and water caps for previously laid new water lines along Maddox and Hoskins streets was discussed. It is necessary to cap the old lines and take them out of service in order to utilize the newer 6" lines laid in the 1990's. Councilperson Ellison made a motion to approve the proposal in the estimated amount of \$10,000 to Roberts Construction with an additional \$10,000 in costs to the city for parts and supplies, and seconded by Councilperson Markham. Motion carried. Once all current water projects are completed, a request will be made to Sage Diller, eHT, to complete an "as built" map of our current water lines.

By consensus, council agreed to postpone the City of Eden Planning Session until the new council and mayor are seated after the November 3, 2020 election.

With no further business, the meeting was adjourned.

Mayor, Agapito Torres

Laura Beeson, City Administrator
